STRUCTURAL SYSTEM SELECTION

Competition: Did reinforced concrete compete with other structural framing systems on this project? If so, what other system/s?

Key Influences: What below factors most influenced the decision to choose reinforced concrete? *(select all that apply)*

- | | | |
|---|--|--|
| Flexible Design <input type="checkbox"/> | Sustainability <input type="checkbox"/> | Economy of Construction <input type="checkbox"/> |
| Durability/ Resilience <input type="checkbox"/> | Sound/Vibration Control <input type="checkbox"/> | Industry Innovation <input type="checkbox"/> |
| Financial Savings <input type="checkbox"/> | Aesthtics <input type="checkbox"/> | |

Influences: What other factors influenced the decision to choose reinforced concrete?

Unique Factors: What special considerations weighed most significantly in system selection?

RESPONDING WITH REINFORCED CONCRETE SOLUTIONS

Innovation: Were any innovative approaches involved in design and/or construction? *(Please attach detail + supporting images)*

OUTCOME OBJECTIVES & CONDITIONS

Overall: Please summarize any unique outcome objectives expressed by the owner

Occupant Operations: Does any intended occupant have special ongoing operational needs from, or goals for, the building?

Design Challenges: What have been the principal project challenges? *(Please attach detail as needed)*

Jobsite Conditions: What, if any, special local conditions exist impacting constructability?

RESULTS

Owner Satisfaction: Is the owner satisfied with the project outcome?

Please attach statement(s)

Occupant Satisfaction: Is the occupant satisfied with the project outcome?

Please attach statement(s)

Project Awards: Has there been professional recognition/honors awarded for work on this project?

Please list/attach detail. (Year, Awarded by, Recognized accomplishment)
