

# Contents

Chapter 1		
<b>Introduction</b>		1-1
1.1 General		1-1
Chapter 2		
<b>Loads</b>		2-1
2.1 General		2-1
Chapter 3		
<b>Pile Cap Behavior</b>		3-1
3.1 General		3-1
3.2 Load Case I: Vertical Loading		3-1
3.3 Load Case II: Combined Axial, Shear, and Moment Demand		3-2
Chapter 4		
<b>Dimensioning and Detailing Pile Caps</b>		4-1
4.1 General		4-1
4.2 General Overview of AASHTO 5.13.3 and Chapter 10 Provisions as Applied to Pile Caps		4-1
4.3 Other Pile Cap Requirements and Recommendations as Used in this Design Guide		4-3
Chapter 5		
<b>Pile Cap Design for Gravity Loads</b>		5-1
5.1 General		5-1
5.2 Design Provisions for Flexure		5-1
5.3 Design Provisions for Shear		5-2
5.4 Limit State Design Summary for Shear		5-5
5.5 Tabulated Pile Cap Designs for Gravity Loads		5-8
Chapter 6		
<b>Pile Cap Design for Lateral Loads</b>		6-1
6.1 General		6-1
6.2 Pile Cap Analysis Models and Properties		6-1
6.3 Tabulated Pile Cap Designs for Combined Gravity and Lateral Loads		6-3
Chapter 7		
<b>Seismic Design of Pile Caps</b>		7-1
7.1 General		7-1
7.2 Overview of Some Significant Provisions for the Seismic Design of Pile Caps as Contained in Outside Resources		7-1
Chapter 8		
<b>Design Examples</b>		8-1
8.1 General		8-1
8.2 Design Example #1: 16 Piles		8-1
8.3 Design Example #2: 5 Piles		8-7
8.4 Design Example #3: 6 Piles		8-12
8.5 Design Example #4: 7 Piles		8-17
8.6 Design Example #5: 5 Piles (HIGH LOAD PILING)		8-22
8.7 Design Example #6: 16 Piles – Axial Plus Lateral Demand		8-27
Chapter 9		
<b>Tabulated Designs</b>		9-1
9.1 General		9-1
9.2 Tabulated Pile Cap Designs for Gravity Loads		9-1
9.3 Tabulated Pile Cap Designs for Combined Gravity and Lateral Loads		9-1
Chapter 10		
<b>Selected References</b>		10-1
<b>Notations</b>		N-1
<b>Tables</b>		T-1
<b>Appendix A – Derivations and Proofs</b>		A-1
<b>Appendix B – Column-to-Pile Cap Connections</b>		B-1
<b>Appendix C – Pile-to-Pile Cap Connections</b>		C-1
