### **Concrete Reinforcing Steel Institute Hires Southeast Region Manager**

(SCHAUMBURG, IL – April 4, 2014) The Concrete Reinforcing Steel Institute (CRSI) announces the hiring of David Pfanmiller as Southeast Region Manager.

Before joining CRSI, David worked in the concrete construction industry for more than 30 years. Most recently, David was employed by the U.S. Army Corps of Engineers, where he served as a senior construction project manager at the U.S. Military Academy at West Point, and in a similar position with the Corps in Alexandria, VA. Prior to that, he worked as a concrete construction contractor around the southeastern United States for many years.

“David’s extensive experience in the industry will enhance CRSI’s expertise as both a Region Manager to our members and a resource to the design/construction community,” said Bob Risser, President and CEO.

David holds a bachelor’s degree in architecture from the University of Kansas. He takes over the position of Southeast Region Manager from Steve Hawkins, who currently serves as CRSI’s Vice President of Marketing.

#### ***About the Concrete Reinforcing Steel Institute***

Founded in 1924, the Concrete Reinforcing Steel Institute (CRSI) is a technical institute and an accredited Standards Developing Organization (SDO) that stands as the authoritative resource for information related to steel reinforced concrete construction. Serving the needs of engineers, architects and construction professionals, CRSI offers many industry-trusted technical publications, design aids, reference materials and educational opportunities. CRSI Industry members include manufacturers, fabricators, material suppliers and placers of steel reinforcing bars and related products. Our Professional members are involved in the research, design, and construction of steel reinforced concrete. CRSI also has a broad Region Manager network that supports both members and industry professionals and creates awareness among the design/construction community through outreach activities. Together, they form a complete network of industry information and support.
