CRSI Student Membership

What can it do for you?

Learn more at **crsi.org/membership/student/**

WHY BECOME A CRSI STUDENT MEMBER?

Reinforced concrete depends on many professionals, including the engineer, architect, code writer, building official, specification writer, university professor and researcher, detailer, fabricator, and the ironworker who places reinforcing steel in the field. Students preparing for any of these roles are eligible for membership in the Concrete Reinforcing Steel Institute: students in engineering, architecture, or construction programs at a college or university, students enrolled in a technical college program, and apprentices in an Iron Workers local apprenticeship program. CRSI membership gives students early access to the firms, technical resources, and people who design, supply, and build with reinforcing steel, and that access can shape a successful career in the industry.

CRSI STUDENT MEMBERSHIP (A $150 VALUE) INCLUDES:

- **You will save on CRSI publications.** Members may order three copies of any publication every year at the members' discount price.
- **You will be informed of CRSI activities.** You will receive the CRSI Quarterly newsletter, *CRSInsider*, and other valuable and timely information. You will have the opportunity to attend national and local CRSI meetings at a discounted price. CRSI holds a Spring Business & Technical Meeting and a Fall Business & Technical Meeting each year, in addition to regional and chapter meetings.
- **You can take part in a technical information exchange.** Technical papers from many CRSI sources are periodically published and many are distributed to professional members.
- **You will enjoy authorship opportunities.** Members may submit educational ideas or practical papers for publication in the nationally distributed CRSI Technical Notes series, Structural Bulletin Series and other technical publications.

All these benefits for FREE. Become a member today! Submit your application and start benefiting from Student Membership in CRSI.

CRSI Concrete Reinforcing Steel Institute

933 North Plum Grove Rd. Schaumburg, IL 60173-4758
