

WE WORK SAFE!

Every Teammate makes a difference...

Our goal is zero accidents...

Perform Checklist Daily

- ✓ Make sure the area around the shear and console is free of debris
- ✓ Check that all guards are in place
- ✓ Check the blade bolts for wear
- ✓ Make sure the safety mats are in place and working
- ✓ Do a dry run of the machine/test control
- ✓ Clean under the king pin
- ✓ Document any safety issues and immediately report them to your supervisor
- ✓ Document and sign the complete Pre-Operational Checklist
