

Why become a CRSI Student Member?

There are many professionals in the world of reinforced concrete—the engineer, architect, code writer, building official, specification writer, university professor and researcher, among others. As a student concentrating on engineering, architecture or construction, you are eligible for membership in the Concrete Reinforcing Steel Institute. The benefits associated with CRSI membership can help pave the way toward a successful career within the industry.

As a CRSI Student member:

- **You will save on CRSI publications.** Members may order three copies of any publication every year at the members' discount price.
- **You will be informed of CRSI activities.** You will receive the CRSI quarterly newsletter, *CRSInsider*, and other valuable and timely information. And you have the opportunity to participate in national and local CRSI meetings. CRSI holds a Spring Technical Meeting, Spring Conference and Fall Business & Technical Meeting each year, in addition to regional and chapter meetings.
- **You can take part in a technical information exchange.** Technical papers from many CRSI sources are periodically published and distributed to professional members.
- **You will enjoy authorship opportunities.** Members may submit educational ideas or practical papers for publication in the nationally distributed CRSI *Technical Notes* series, *Structural Bulletin Series* and other technical publications.

All these benefits for **FREE**. Become a member today! Complete and return this application and start benefiting from Student Membership in CRSI.

The Concrete Reinforcing Steel Institute (CRSI) is an established, professional trade association representing every aspect of the steel reinforced concrete industry. From technical publications and design aids to educational seminars and membership functions, CRSI offers all its members a complete network of industry information and support.
